Full-stack web developer with a bachelor's degree in Computer Science from Kennesaw State University. Recently earned a certificate in Full Stack development from Georgia Tech, with newly developed skills in React.js, JavaScript, CSS, and responsive web development. As a go-to problem solver for a team of five, we recently created a single page, MERN app for keeping track of pets health information, prescriptions, doctors' visit information, and pet sitters. Excited to use my skills and programming techniques to best serve users.
